Portfolio: https://ojosh-portf.netlify.app/
Lagos, Nigeria

As a front-end developer, I bring my immerse passion to building solutions related to development through the full use of proper tools and methodologies. My strengths include proper usage of CSS and HTML in my codes. I have a successful history of working effectively in getting a job done.

SKILLS

Conversant Languages: HTML, CSS.
Tools & Skills: GitHub, Git, Netlify, FTP's, IDEs, Responsive websites, Website development, Bootstrap, CSS debugging,

EXPERIENCE

Web developer:
(Intermediate stage)

- Proper usages of the front end developing tools such as CSS/HTML
- Collaborated with 10 colleges in school to develop a fully functioning website (School Project). Where I based on the styling aspect(CSS) and all CSS method was used in the project.
- Made a website fully responsive without the use of Bootstrap
- Proper usage of Bootstrap in making a website responsive and designing of a website(buttons and navigation bar)
- Demonstrated creativity by integrating interactive elements and features that emulate real-world social apps, while maintaining a light-hearted and canine-themed atmosphere.
- While working on the project (omnifood), I used Code Re-use properties to minimize the bulkiness of the code thus making it lighter and process faster by 15%.
- I have a keen interest in learning new frameworks and tools to improve my coding efficiency and quality which led me to learn a bit of python coding and flaskapp.
